Audible Release

We Appreciate You....

By Addison Ozakyol, D.C. ATC. CSCS

Please see pages 2-3 as we wish farewell to late past-president, our dear friend and colleague, Dr. Albert Comey

Thank you NUHS clinic for hosting our March meeting and to student interns Nicole, Ayla, and Logan (L to R) for presenting cases.

VISIT US ONLINE AT PCCSCHIRO.ORG

NEW DINNER VENUE LOCATION!!! Join us at the Pinellas Park Chamber of Commerce; see pg-6 for address
Join us on Thursday, May 4th for our annual fundraiser Shoot for the PAC in Odessa; see pg-12 for form
CPR biannual re-certifications are due; Join Us for CPR class and recert FREE for members on June 27th

FAREWELL TO A GREAT FRIEND AND DOCTOR

Albert Comey was born on April 18th, 1970 at Bayfront Medical Center in St Petersburg Florida. He was affectionately called Al. Al & I grew up in the same neighborhood playing basketball in his front yard, video games, soccer, and other mischief we may have gotten ourselves into.

When he was 14 years old, he developed knee pain. At the time, his mother was being treated by a local chiropractor due to an auto accident and suggested to him that he should be evaluated. Back then he was very suspicious of chiropractic. He said, "what the heck", you're paying for it! After a few weeks of treatment, his knee pain was gone, and he became a believer. That paved the road for what he wanted to do with his life.

During Al's time at FSU (Go Noles!), he met Jennifer Olow, in which I truly believe God, the Universe, whatever you may believe, brought them together. All of you that have known Al early on, know what I mean! It was a Yin and Yang situation.

Al decided to go to Life University to pursue Chiropractic. During undergrad, Al and I had stayed close friends so we decided that we would all live together while we attended graduate school. We were the "Reverse Three's Company" (Al, Jen and me). We had some really great stories, experiences, and adventures during that time.

Through his time at Life University, Al worked and shadowed under Dr. Ken Humber, a well-known upper cervical doctor (Orthospinology) in Atlanta. After finishing Chiropractic school in 2000, Al and Jen decided to move back to Pinellas County to practice chiropractic.

Al joined the PCCS shortly after moving back to Pinellas County in 2001. He wanted to be more involved and was nominated to a board seat, however, Al was the only member of the PCCS to lose in a run-off for a board seat to the late Dr. Kelly Reed! He would eventually get on the board the following year.

In 2005, Al was at a Parker seminar in which he heard Dr. Dan Murphy speaking on neurology. Al received his next calling and that was to attend The Carrick Institute of Graduate Studies. He received his diplomate in Chiropractic Neurology in 2009. During that time and after, Al was always working on advancing his knowledge to be able to best serve his patients, going to countless seminars and receiving certifications.

While on the PCCS board of directors, he performed every board position and was President multiple times. He was a valued member for 22 years. During those 20 years as a board member, Al received Chiropractor of the Year, Service Awards, and the Anthony Mosca Chiropractor of the Year. Al will also be remembered for his wacky outfits for the PCCS Golf Tournaments. Our team might not have posted the lowest score at the tournament, but he always said, "we won the sexiest foursome."

FAREWELL TO A GREAT FRIEND AND DOCTOR

During his time with the PCCS, Al rarely missed monthly meetings and made every trip for Chiropractic Day on the Capitol in Tallahassee. For those of you that couldn't make the Tallahassee trips, you missed some great times! We have stories that will be able to be told for years and have laughs so hard they make you tear up (maybe not so much for Jen!)

For those that have been long time members or sponsors remember the late nights at Tucsons (we closed it down!), the great conversations, the shenanigans he would instigate, Holiday parties, the golf tournament costumes, and so much more. They will be forever missed by me and all of you that knew him. We are all family, and we just lost a great member of that family.

Al's devotion to his profession and his larger-than-life character will be painfully missed. We appreciate all that you gave Albert J. Comey D.C. DACNB.

Jason Miller, D.C.

For a full obituary written by his brother, Edward Comey, and video of the service: www.hubbellfuneralhome.com

THE RADIOLOGIST'S VIEW

TAKE THE PLEDGE

Most everyone will take a pledge sometime during their lifetime. The pledge is basically a promise to do something; show allegiance to your country, be faithful to your spouse or perhaps agree to pay back a loan. But have you ever taken a professional pledge to be a better physician? In diagnostic imaging, this has become a realistic option. The American College of Radiology, the Radiological Society of North America and others, combined forces to create the “Image Wisely” campaign with the objective of reducing radiation and unnecessary imaging studies and procedures. This gives us a chance to demonstrate adherence to diagnostic imaging standards, as an individual practitioner and as a profession.

The “Image Wisely” campaign allows imaging professionals, referring practitioners, imaging facilities and associations to take an annual pledge to help meet the objectives of the campaign. Their website provides information for patients regarding imaging procedures, patient safety and radiation dose. A link to a sister organization, “Image Gently”, for pediatric radiation safety information, is provided. Medical imaging record templates are available for patients in order to allow them to keep track of their radiation exposure. Radiation safety information and other resources for referring physicians are available that can help the referrer when deciding the need for imaging and appropriate modality selection.

So exactly what do you have to do? First, visit the website “Imagewisely.org” and take a look at all that is available. When you are ready, click the “Take the pledge” button then click the appropriate “Pledge” button. If you are a “Referring Practitioner” you will be asked if you have reviewed the webpage for referring practitioners. If yes, take the pledge. You will pledge to educate yourself regarding radiation exposure, and to balance benefits of the imaging

exam against potential risk of that exam. You will also pledge to consult with specialists in medical imaging as needed, to choose appropriate imaging examinations for your patients.

Radiology has been, and will continue to be, an essential tool for our profession. Our conservative approach to health care demands that we utilize ionizing radiation with a healthy dose of caution. In addition, we are often scrutinized and suspect when it comes to standard of care and appropriateness of procedures. The only way to overcome this perception is to do better and continue to improve. Because radiology is ubiquitous in health care, we must conform to the standards that have been established. The quality of our diagnostic images needs to be compared to these standards. It’s important to remember that the quality our diagnostic images create an image of our profession.

By taking the Pledge you are demonstrating your willingness to improve your understanding of the proper use of diagnostic imaging and, at the same time, enhance our profession’s image.
